

New Source Review newspaper advertisements for construction permit applications, September 16, 2004. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: September 14, September 15, or September 16, 2004. Public notices are generally published every two weeks. The previous publication of public notices was August 31 – September 2, 2004.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Tennessee Asphalt Company with a mailing address of P.O. Box 1111, Knoxville, TN 37901-1111. They seek to obtain an air contaminant permit (Division identification number: 18-0091-01/57580) for modification of a Hot Mix Asphalt Plant located on Highway 70 East, Crab Orchard, TN 37723. This existing operation consists of a batch mixer, asphalt cement storage, crushed limestone aggregate stockpiles, and associated equipment used to produce hot mix asphalt (HMA). A baghouse is used for pollution control. The requested modification is to increase hours of operation and annual production output to 437,500 tons per year. There would be no physical construction. There would be an increase in the regulated air contaminants emitted by this source. Mr. W. Medley is the assigned Division person.

For the Cumberland County “Crossville Chronicle”--published once on or before Thursday, September 16, 2004.

The applicant is Vulcan Construction Materials, L.C. with a mailing address of P.O. Box 7, Knoxville, TN 37901. They seek to obtain air contaminant permits for modification of air contaminant sources located at 642 Theta Pike, Columbia, TN 38401, as follows:

(1) Rock Crushing Operation (Division identification number: 60-0017-01/57556). The operation at the site consists of rock crushers, screens, conveyors, and associated equipment for the crushing of rock. Wet suppression is used for pollution control. The requested modification is to increase the rock crushing operating hours from 2,000 to 3,200 hours per year. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Robert Benjamin is the assigned Division person.

(2) Generators (Division identification number: 60-0017-02/57555). The operation at the site consists of four (4) natural gas-fired electric generators used to supply power to the rock crushing operation. The requested modification is to increase the generators' operating hours from 2,000 to 3,200 hours per year. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Robert Benjamin is the assigned Division person.

For the Maury County "Daily Herald"--published once on or before Thursday, September 16, 2004.

The applicant is Vulcan Materials Company-Midsouth Division with a mailing address of P.O. Box 7, Knoxville, TN 37091. They seek to obtain an air contaminant permit (Division identification number: 78-0011-04/57553) for construction of a Diesel-fired Electric Generator at 1138 Park Road, Sevierville, TN 37862. This proposed operation would consist of one (1) diesel-fired generator used to provide power for an existing rock crushing operation. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

For the Sevier County "Mountain Press"--published once on or before Thursday, September 16, 2004.

The applicant is TF Global Gasket, LLC with a mailing address of 167 Bentley Harris Way, Gordonsville, TN 38563. They seek to obtain an air contaminant permit (Division identification number: 80-0047-04/57430) for construction of a Surface Coating Operation at the same address. This proposed operation would consist of one (1) coating line, known as the Partial Coating Line or Line 3, and a new mixing room. A regenerative thermal oxidizer (RTO) would be used for emission control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. R. Simmons is the assigned Division person.

For the Smith County "Carthage Courier" – published once on or before Thursday, September 16, 2004.

The applicant is Vulcan Materials Company-Midsouth Division with a mailing address of P.O. Box 7, Knoxville, TN 37091. They seek to obtain an air contaminant permit (Division identification number: 87-0035-02/57577) for construction of a Diesel-fired Electric Generator at 776 John Deere Drive, Maynardville, TN 37807. This proposed operation would consist of one (1) diesel-fired generator used to provide power for an existing rock crushing operation. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Martin is the assigned Division person.

For the Union County "News Leader"--published once on or before Thursday, September 16, 2004.

The applicant is American Colors, Inc. with a mailing address of 909 Tennessee Blvd., Lebanon, TN 37087. They seek to obtain air contaminant permits for air contaminant sources located at the same address, as follows:

(1) Pigment Dispersions Manufacturing Process (Division identification number: 95-0278-01/57399). This existing operation consists of mixers, roll mills, horizontal mills, a sand mill, and one (1) spray booth. Exhaust filters are used as control for the spray booth, and a dust collector is used as control for the mixers. Regulated air contaminants are emitted by this source. Mr. R. Simmons is the assigned Division person.

(2) Clean-up Operations (Division identification number: 95-0278-02/57399). This existing operation consists of a cleaning tank, safety cans, process machines, and work areas throughout the source. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. Regulated air contaminants are emitted by this source. Mr. R. Simmons is the assigned Division person.

For the Wilson County "Lebanon Democrat"--published once on or before Thursday, September 16, 2004.
